

Avhandlingar inom området barn- och ungdomsallergologi

I denna förteckning har tagits med avhandlingar av läkare, sjuksköterskor, m.fl. som behandlat ämnesområdet barn- och ungdomsallergologi (A + B). Vidare har tagits med avhandlingar av läkare som varit verksamma inom barnallergologi men vars avhandling berört andra ämnesområden (C).

A. Avhandlingar av specialister i barn- och ungdomsallergologi som disputerat inom detta område

Namn	Universitet - Sjukhus	År	Titel
Sven Kræpelien	Karolinska Institutet, Sachsska Barnsjukhuset, Stockholm	1959	Respiratory studies in asthmatic children during symptom-free periods
Inga Engström	Karolinska Institutet, Karolinska Sjukhuset, Solna	1964	Bronchial obstruction and hyperinflation in asthmatic children
Bengt Kjellman	Lunds Universitet, Lunds Lasarett, Lund	1969	Regional lung function and overall ventilatory efficiency in children
Torsten Berg	Uppsala Universitet, Akademiska sjukhuset, Uppsala	1969	Serum levels of immunoglobulins in infancy and childhood. A study of the normal development of IgG, IgA, IgM, IgD and IgE and of the IgE levels in children with atopic diseases
Tony Foucard	Uppsala Universitet, Akademiska sjukhuset, Uppsala	1973	Studies on reaginic allergy <i>in vitro</i> and <i>in vivo</i>
Max Kjellman	Linköpings Universitet, Regionsjukhuset i Linköping	1976	Immunoglobulin E and atopic allergy in childhood
Viggo Graff Lonnevig	Karolinska Institutet, Sachsska Barnsjukhuset, Stockholm	1978	Cardio-respiratory function, aerobic capacity and effect of physical activity in asthmatic boys
Inga-Lisa Strannegård	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	1978	Blood lymphocytes in atopic children
Anders Dannaeus	Uppsala Universitet, Akademiska sjukhuset, Uppsala	1979	Food allergy in childhood. A study of the humoral immune response to basic food antigens in relation to clinical symptoms
Vivianne Oxelius	Lunds Universitet, Lund, Lunds Lasarett, Lund	1979	IgG subclasses in children with special reference to immunodeficiency states.
Eivor Svenonius	Lunds Universitet, Malmö Allmänna Sjukhus, Malmö	1982	Avstängda lungvolym (VTG) hos barn
Lennart Nordvall	Uppsala Universitet, Akademiska sjukhuset, Uppsala	1983	Immune response to allergens : a clinical and experimental study
Gunilla Hedlin	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Huddinge	1984	Effects of acute bronchial obstruction on respiratory and circulatory function in asthmatic children
Ejvor Oberger	Karolinska Institutet, Rikshospitalet, Oslo	1986	Långtidsbehandling med kortikosteroider och ACTH vid astma hos barn: en studie av lungfunktion, endokrina funktioner, tillväxt och skelettmognad
Christian Möller	Umeå Universitet, Universitetssjukhuset, Umeå	1986	Immunotherapy of children with rhinoconjunctivitis due to birch pollinosis
Sten Dreborg	Linköpings Universitet, Universitetssjukhuset, Linköping	1987	The Skin Prick test. Methodological studies and clinical applications
Karin Fälth-Magnusson	Linköpings Universitet, Universitetssjukhuset, Linköping	1987	Intrauterine sensitization and gut permeability in relation to childhood allergy
Nils Åberg	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	1988	Allergic diseases in childhood and adolescence in relation to background factors
Gunnar Hattevig	Linköpings Universitet, Kärn sjukhuset, Skövde	1989	Sensitization and type I allergy in infants and children
Gunnar Lilja	Karolinska Institutet, Sachsska Barnsjukhuset, Stockholm	1990	Development of Atopy during Infancy in Relation to Food Allergen Intake
Stefan Croner	Linköpings Universitet, Universitetssjukhuset, Linköping	1991	Development of atopic disease from birth to adolescence: Relation to family history and cord blood IgE
Per M Gustafsson	Linköpings Universitet, Universitetssjukhuset, Linköping	1991	Oesophageal function, acid reflux and bronchopulmonary disease: A study on children and adolescents with asthma or cystic fibrosis
Magnus Persson Borres	Linköpings Universitet, Universitetssjukhuset, Linköping	1991	Metachromatic cells and eosinophils in atopic children. A prospective study.
Magnus Wickman	Karolinska Institutet, S:t Görans Barnsjukhus, Stockholm	1993	Residential characteristics and allergic sensitization in children, especially to mites
Hannes Odelram	Linköpings Universitet, Universitetssjukhuset, Linköping	1995	Prediction and prevention of allergy in infants and children
Nele Sigurs	Linköpings Universitet, Södra Älvsborgs Sjukhus, Borås	1995	Studies on sensitization and atopic disease in infants and children
Emma Rylander	Karolinska Institutet, Institutet för miljömedicin, Solna	1995	Risk factors for wheezing bronchitis in young children
Sigurdur Kristjánsson	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	1995	Inflammatory mediators and treatment effects in childhood asthma and wheezing bronchitis
Anders Lindfors	Karolinska Institutet, Danderyds Sjukhus,	1996	Development of atopic disease in early childhood. Immunological properties of mononuclear cells in human cord blood and colostrum. Influence of ingested and inhaled allergen
Göran Oldaeus	Linköpings Universitet, Länssjukhuset Ryhov, Jönköping	1998	Cows' milk hydrolysates: Prevention and treatment of cows' milk allergy
Lennart Nilsson	Linköpings Universitet, Universitetssjukhuset, Linköping	1998	Risk factors for atopic disease in childhood
Aina Warner	Linköpings Universitet, Universitetssjukhuset, Linköping	1998	Childhood asthma and indoor environment
Karel Duchon	Linköpings Universitet, Universitetssjukhuset, Linköping	1999	Human milk factors and atopy in early childhood

Bill Hesselmar	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	2000	The increase of allergic diseases in schoolchildren: the significance of pets and other environmental components
Michael Benson	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	2000	Cytokines and their soluble receptors in nasal fluids from school children with allergic rhinitis
Johan Alm	Karolinska Institutet, Sachsska Barnsjukhuset, Stockholm	2001	Atopy in children – association to life style
Kjell Reichenberg	Nordiska Hälsovårdshögskolan, Göteborg, Drottning Silvias Barnsjukhus, Göteborg	2001	Children with asthma and their families. Coping, adjustment and quality of life.
Karin Lönnkvist	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Solna	2002	Allergic inflammation in children with pet allergy and asthma. Mechanisms, markers and clinical consequences
Catarina Almqvist	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Solna	2002	Cat and dog allergens. Dispersal, exposure and health effects in childhood
Helena Aniansson Zdolsek	Linköpings Universitet, Universitetssjukhuset, Linköping	2002	Maturation of T-lymphocytes in children in relation to development of atopic disease
Anne Kihlström	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Huddinge	2004	Exposure to birch pollen and development of atopic disease in childhood
Christophe Pedroletti	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Solna	2004	Exhaled nitric oxide in schoolchildren with asthma
Irene Devenney	Linköpings Universitet, Universitetssjukhuset, Linköping	2006	Assessing eczema and food allergy in young children
Bengt W Granström	Lunds Universitet, Lunds Lasarett, Lund	2006	Endothelin receptor changes during inflammation in the lung
Erik Melén	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Solna	2006	Genetic studies on childhood asthma and allergy : Role of interactions
Caroline Nilsson	Karolinska Institutet, Sachsska Barnsjukhuset, Stockholm	2006	Cytokine profile, infections and IgE sensitisation in childhood
Carl-Axel Hederos	Karolinska Institutet, Karlstads lasarett, Karlstad	2007	Asthma in young children. Epidemiology, burden of asthma and effects of a parental information program
Gunilla Norrman	Linköpings Universitet, Hudiksvalls Sjukhus	2007	Eczema in young children: aspects of clinical investigation and treatment.
Christina West	Umeå Universitet, Universitetssjukhuset, Umeå	2008	Feeding <i>Lactobacillus paracasei ssp paracasei strain F19</i> to infants during weaning: Effects on adaptive immunity and gut microbial function
Eva Östblom	Karolinska Institutet, Sachsska Barnsjukhuset, Stockholm	2008	Symptoms of food hypersensitivity in relation to sensitization to food and health-related quality of life in children
Anna Sandin	Umeå Universitet, Universitetssjukhuset, Umeå	2008	Development of allergy, salivary IgA antibodies and gut microbiota in a Swedish birth cohort
Wilhelm Zetterquist	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Solna	2008	Exhaled Nitrogen Oxides and Carbon Monoxides in Asthma and Cystic Fibrosis: Markers of Inflammation
Thomas Abrahamsson	Linköpings Universitet, Universitetssjukhuset, Linköping	2009	Can <i>Lactobacillus Reuteri</i> prevent allergic diseases in early childhood
Christina Keen Fredriksson	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	2010	Exhaled NO and small airway function in asthma and cystic fibrosis
Natalia Ballardini	Karolinska Institutet, Sachsska Barnsjukhuset, Stockholm	2013	Aspects of eczema in childhood
Hampus Kiotseridis	Lunds Universitet, Malmö Allmänna Sjukhus, Malmö	2013	The Voice of the Patient. Patient-reported outcomes in respiratory allergic disease, with special focus on health-related quality of life
Sten-Erik Bergström	Karolinska Institutet, Astrid Lindgrens Barnsjukhus, Solna	2013	Asthma and allergy in teenagers and young adults, risk-factors and T-cell regulation

B. Övriga avhandlingar inom området barn- och ungdomsallergologi

Namn	Universitet - Sjukhus	År	Titel
Per Juto	Umeå Universitet, Universitetssjukhuset, Umeå	1980	Immune responses, type of feeding and atopic allergy in infants
Ingrid Enander	Uppsala Universitet, Pharmacia Diagnostics AB	1984	Delayed hypersensitivity reaction reflected as accumulation of mononuclear cells, mast cells and mucus producing cells in the mouse lung
Per A Gustafsson	Linköpings Universitet, Universitetssjukhuset, Linköping	1987	Family interaction and family therapy in childhood psychosomatic disease: A family systems approach to illness
Ebba Tiberg	Uppsala Universitet	1989	Microalgae as allergens with emphasis on the genus <i>Chlorella Beijerinck</i>
Daniel Holmgren	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	1993	Transcutaneous blood gas monitoring in children with bronchial asthma
AKM Munir	Linköpings Universitet, Universitetssjukhuset, Linköping	1994	Exposure to indoor allergens and relation to sensitization and asthma in children
Lennart Bråbäck	Linköpings Universitet, Sundsvalls Sjukhus, Sundsvall	1995	Respiratory symptoms and atopic sensitization among schoolchildren in different settings around the Baltic Sea.
Rafael Ferrandiz	Linköpings Universitet, Universitetssjukhuset, Linköping	1997	Allergenic characterization of the domestic mite <i>Dermatophagoides siboney</i>
Guo Yu	Linköpings Universitet, Universitetssjukhuset, Linköping	1998	Polyunsaturated fatty acids in relation to childhood and maternal allergic diseases
Kaja Julge	Linköpings Universitet, Tartu Barnsjukhus, Tartu, Estland	1998	Humoral immune responses to allergens in early childhood
Maire Vasar	Linköpings Universitet, Tartu Barnsjukhus, Tartu, Estland	1998	Allergic diseases and bronchial hyperreactivity in Estonian children in relation to environmental influence
Maria Jenmalm	Linköpings Universitet, Universitetssjukhuset, Linköping	1999	Development of IgG subclass antibodies to allergens in early childhood
Eva Rönmark	Umeå universitet, Norrbottens läns landsting	1999	Asthma - Incidence, Remission and Risk factors, The Obstructive Lung Disease in Norrbotten Sweden Study, Thesis II.
Robert Saalman	Göteborgs Universitet, Drottning Silvias Barnsjukhus, Göteborg	1999	Antibody-dependent cell-mediated cytotoxicity triggered by dietary antigens in cow's milk protein intolerance and coeliac disease
Manuel E Soto-Quiros	Göteborgs Universitet, (Costa Rica)	2000	Studies of the prevalence of asthma and allergy in Costa Rican school children
Rosaura Casas	Linköpings Universitet, Universitetssjukhuset, Linköping	2001	Transfer of humoral immunity from the mother to her off-spring
Malin Fagerås	Linköpings Universitet, Universitetssjukhuset, Linköping	2002	Immunological factors in breast milk in relation to allergy in mother and child
